[Datasheet](#)

Advanced Energy's SL Power GB130Q series of open-frame AC-DC power supplies comprises five quad outputs models. All models feature medical safety approvals and accept a universal input of 90 to 264 VAC. These compact switch-mode power supplies feature output overvoltage, overload protection, with short-circuit protection on all outputs. GB130Q series power supplies provide 100 W of output power with free air convection cooling and 130 W with 200 LFM of forced air.
